

Flow chart 1 for the deliberation and review of self-redeeming public debt

After January 1 2014, general plans that do not require the approval of the Executive Yuan or the head of its agency should comply with Paragraph 1 Article 2 of the Public Debt Administration Committee Review Rules. These plans include the new issuance, amendment, and continuation of medium and long-term individual projects or public works projects.

The projects sponsoring agency or fund management agency of the plan should prepare a self-redeeming debt borrowing and repayment plan before April 30 of each year to the Public Debt Administration Committee for deliberation.
